

Fire Investigation Training

Practical Application and Hands on Experience – Intermediate (Q52G)

Presented by The Detroit Fire Department Fire Investigation Division

The Fire Investigation: Practical Application and Hands on Experience – Intermediate Course is designed to give students additional hands on experience on more advanced subject matter relating to fire investigation topics and job performance requirements outlined in the current edition of NFPA 1033. Classroom lectures and in-depth hands-on practicals will be held on the following topics: The Fire Investigators as an Expert Witness, Bias in Fire Investigations, Electricity and Electrical Systems, Techniques for Origin Determination and Fundamentals of Scene Documentation. This training exposes students to advanced terminology used in fire investigation, advanced investigation methods and professional standards widely accepted by professionals in the field of fire investigation
