Dear Friends,

As we start a new year, we look back with pride and gratitude at the accomplishments of the Detroit Public Safety Foundation in 2022. Each year our foundation continues to grow, advancing priority projects which support public safety in Detroit. We remain committed to our mission of serving Detroit’s first responders and thankfully, our community continues to back our efforts. Together, we are making a significant impact.

Grant funding continues to be a priority. In 2022 we were awarded \$746,980 in grant funding. The Hudson Webber Foundation provided a \$320,000 grant for DPD SWORN. DPD SWORN is an innovative initiative to advance the Skills and Wellness of its sworn employees by identifying Opportunities, Risks and Needs of each individual officer. General Motors provided \$125,000 for the Detroit Youth Violence Initiative to continue the Drive to Thrive program, providing drivers education training for students in Detroit.

Monetary donations support many areas and initiatives throughout the departments like individual precincts and firehouses or specialty units like the Arson or Homicide Units. We receive restricted donations for many different programs and enjoy working directly with each unit on their various needs and events.

This year we received more than \$400,000 in in-kind donations for Operation Justice for Zion, a multi-jurisdictional effort to recover the remains of 17-year-old Zion Foster in the Lennox Township Landfill. We received in-kind donations of excavators and equipment, allowing officers to conduct the tedious search. Sadly, Zion Foster’s body was not recovered but every effort was made on her behalf.

We are proud to play a role in supporting these projects and hope you learn more about our work in this report. With your continued support, we are investing in a safer city.

With gratitude,

Patti Kukula  
Executive Director
